

Local Government & Social Care OMBUDSMAN

21 July 2021

By email

Mr Bridge
Chief Executive
Wellingborough Borough Council

Dear Mr Bridge

Annual Review letter 2021

I write to you with our annual summary of statistics on the decisions made by the Local Government and Social Care Ombudsman about your authority for the year ending 31 March 2021. At the end of a challenging year, we maintain that good public administration is more important than ever and I hope this feedback provides you with both the opportunity to reflect on your Council's performance and plan for the future.

I note that from 1 April 2021 Wellingborough Borough Council along with Corby Borough Council, Kettering Borough Council, and East Northamptonshire Council became North Northamptonshire Council. This letter relates to 2020-21 and we have issued separate review letters in respect of each authority as they existed during that year. It is likely we will report the outcomes of a small number of cases in 2022 that relate to the former authorities. We will seek to do this in the clearest and most convenient way.

You will be aware that, at the end of March 2020 we took the unprecedented step of temporarily stopping our casework, in the wider public interest, to allow authorities to concentrate efforts on vital frontline services during the first wave of the Covid-19 outbreak. We restarted casework in late June 2020, after a three month pause.

We listened to your feedback and decided it was unnecessary to pause our casework again during further waves of the pandemic. Instead, we have encouraged authorities to talk to us on an individual basis about difficulties responding to any stage of an investigation, including implementing our recommendations. We continue this approach and urge you to maintain clear communication with us.

Complaint statistics

This year, we continue to focus on the outcomes of complaints and what can be learned from them. We want to provide you with the most insightful information we can and have focused statistics on three key areas:

Complaints upheld - We uphold complaints when we find some form of fault in an authority's actions, including where the authority accepted fault before we investigated.

Compliance with recommendations - We recommend ways for authorities to put things right when faults have caused injustice and monitor their compliance with our recommendations. Failure to comply is rare and a compliance rate below 100% is a cause for concern.

Satisfactory remedy provided by the authority - In these cases, the authority upheld the complaint and we agreed with how it offered to put things right. We encourage the early resolution of complaints and credit authorities that accept fault and find appropriate ways to put things right.

Finally, we compare the three key annual statistics for your authority with similar types of authorities to work out an average level of performance. We do this for County Councils, District Councils, Metropolitan Boroughs, Unitary Councils, and London Boroughs.

Your annual data will be uploaded to our interactive map, [Your council's performance](#), along with a copy of this letter on 28 July 2021. This useful tool places all our data and information about councils in one place. You can find the decisions we have made about your Council, public reports we have issued, and the service improvements your Council has agreed to make as a result of our investigations, as well as previous annual review letters.

I would encourage you to share the resource with colleagues and elected members; the information can provide valuable insights into service areas, early warning signs of problems and is a key source of information for governance, audit, risk and scrutiny functions.

As you would expect, data has been impacted by the pause to casework in the first quarter of the year. This should be considered when making comparisons with previous year's data.

Supporting complaint and service improvement

I am increasingly concerned about the evidence I see of the erosion of effective complaint functions in local authorities. While no doubt the result of considerable and prolonged budget and demand pressures, the Covid-19 pandemic appears to have amplified the problems and my concerns. With much greater frequency, we find poor local complaint handling practices when investigating substantive service issues and see evidence of reductions in the overall capacity, status and visibility of local redress systems.

With this context in mind, we are developing a new programme of work that will utilise complaints to drive improvements in both local complaint systems and services. We want to use the rich evidence of our casework to better identify authorities that need support to improve their complaint handling and target specific support to them. We are at the start of this ambitious work and there will be opportunities for local authorities to shape it over the coming months and years.

An already established tool we have for supporting improvements in local complaint handling is our successful training programme. During the year, we successfully adapted our face-to-face courses for online delivery. We provided 79 online workshops during the year, reaching more than 1,100 people. To find out more visit www.lgo.org.uk/training.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'M King', with a stylized flourish at the end.

Michael King
Local Government and Social Care Ombudsman
Chair, Commission for Local Administration in England

Complaints upheld	
	<p>0% of complaints we investigated were upheld.</p> <p>This compares to an average of 53% in similar authorities.</p> <p>Statistics are based on a total of 1 detailed investigation for the period between 1 April 2020 to 31 March 2021</p> <p>0 upheld decisions</p>
Compliance with Ombudsman recommendations	
No recommendations were due for compliance in this period	
Satisfactory remedy provided by the authority	
The Ombudsman did not uphold any detailed investigations during this period	

NOTE: To allow authorities to respond to the Covid-19 pandemic, we did not accept new complaints and stopped investigating existing cases between March and June 2020. This reduced the number of complaints we received and decided in the 20-21 year. Please consider this when comparing data from previous years.
